Hard Graduated Neutral Density Filter

Irix filter Edge Hard GND4 (0.6) 2EV nano IR 100x150mm

Product serie: Irix Edge
Product name: Irix Edge Hard HND4 (0.6) 100x150mm
Product code: IFE-100-HGND4
Size: 100x150mm
EAN code: 7640172191033

Irix Edge Hard Graduated ND4 filter with optical density 0.6 provides a 2 stop reduction of light hitting the sensor of the camera which is irreplaceable every time when photographing a landscape with a hard line of the horizon like sea or savanna, allowing achieve spectacular effects without using the HDR effect.

Irix Edge filters are characterized by the highest precision and optical quality to be able to meet the image quality generated by Irix lenses. Both surfaces of the glass filter are covered by the multilayer anti-reflex and water/oil-proof coating providing high light transmission and natural colours in any weather conditions.

Technical data

Filter type	Neutral Density, Hard Graduated
Filter density	0.6 (ND4)
Light reduction	2-stops
Size	100x150 mm
Filter thickness	2 mm
Compatibility	Irix IFH-100 and other 100mm systems
Antireflection coatings	multicoated
Special type coatings	NANO, anti-reflex, water and oil proof
