

Feelworld F6 PLUS

Feelworld F6 PLUS is a compact 5.5-inch preview monitor with a multi-point touch display with an IPS screen that allows viewing in native FullHD 1920x1080 resolution with a high contrast of 1000: 1, with a brightness of 500 cd / m², designed so that the view from the camera or camcorder better reproduces the image coming from the recording device.

Thanks to the IPS screen, the monitor allows viewing angles of up to 160 degrees, which greatly facilitates group cooperation with a film team. The device supports 3D LUTs in .cube format imported directly to the monitor via an SD card.

The menu controls are intuitive and easy to use. The monitor has a function knob, which makes work even easier. The device has a 4K HDMI input and output, which allows you to display a live signal and simultaneously send the signal to additional monitors.

The Freeworld F6 PLUS has a standard 1/4 "mounting point. This allows the monitor to be mounted on the camera's shoe, the gimbal, and many other places. It is also possible to mount the monitor directly on a tripod or with the use of the attached tilt arm, which also allows the attachment of additional accessories, e.g. a microphone.

The Freeworld F6 PLUS monitor is equipped with a sun shade that allows for convenient operation of the equipment even in strong sunlight. The device is powered by separately available Sony F and Canon LP-E6 batteries or a dedicated AC adapter, and also thanks to the USB-C port with a charger or 5V 2A power bank. The monitor enables a direct power supply of the camera during operation via a separately available cable.

Set contains:

- 1 x preview monitor
- 1 x Micro HDMI cable
- 1 x sunshade
- 1 x tilt arm
- 1 x user manual
- 1 x box

Accurate and Sharp Images Make Your Shooting Impressive

Built-in 3D LUT and REC. 709 color calibration, enhance your talents and speed up your workflow.

- 5.5-inch screen diagonal
- 1920x1080 screen resolution
- 400 pixels per inch
- 1000:1 high contrast
- Rec. 709 color gamut
- 160° viewing angle

Monitoring Tools with Quick Accessibility

A variety of on-screen tools help your shootings more excellent and professional.

Convenient Touch Screen

All of the functions are at your fingertip. Easy to access everything by touching.

4K HDMI Input & Loop-out

Directly to any DSLR or HD/4K video camera, and send the signal to other monitors, convenient for directors and photographers to monitor simultaneously.

New Dual Battery Plate System

Allows you to attach a Sony F series or a Canon LP-E6 battery directly to the monitor. You need a separate battery plate no longer.

Note: There are no batteries included in the packing box, you need to buy them separately.

VIDEO ASSIST FUNCTIONS:

- * Support 3D LUT Log to Rec.709, user 3D LUT Upload
- * Support Touch Menu
- * Brightness Histogram
- * Waveform
- * Embedded Audio
- * Peaking Focus Assist (red, green, blue, white, yellow five peaking colors optional; 1~10 peaking level adjustable)
- * False Colors
- * Zebra Exposure (1%~100% adjustable)
- * Scan Mode (Under Scan, Over Scan)
- * Check Field (Red, Green, Blue, Gray)
- * Anamorphic Mode (1.25x, 1.33x, 1.5x, 2.0x, 2.0x mag)
- * Image Flip (H, V, H/V)
- * Image Freeze
- * Center Marker
- * Screen Marker (70%, 80%, 90%, 16:9, 16:10, 4:3, 5:4, 1.85:1, 2.35:1)
- * Ratio Marker (16:9, 16:10, 4:3, 1.85:1, 2.35:1)
- * Marker Color (red, green, blue, white, black, yellow)
- * Color Temperature Adjustment
- * Zoom (100%~300%)
- * Aspect Ratio
- * Pixel to Pixel

INPUT/ OUTPUT:

Input: 1 X 4K HDMI

Output: 1X 4K HDMI, DC Output

Audio: 3.5mm Stereo Headphone

HDMI Input/ Output Support Format: 480i/576i/480p/576p; 1080i (60/59.94/50); 720p (60/59.94/50/30/29/25/24/23.98); 1080p (60/59.94/50/30/29.97/25/24/24sF/23.98/ 23.98sF); 4K UHD 3840×2160p (30/29.97/25/24/23.98Hz), 4096×2160p (24Hz)

Compatibility batteries: Sony F970, F960, F950, F930, F770, F750, F730, F570, F550, F530, QM91D, QM91, QM90D, QM90, QM71D, QM71, QM70D, QM70, QM51D, QM51, FM71, FM70, Canon LP-E6

Dimensions: 148mm x 93mm x 20mm

Weight: 235g
