Warranty	6 years

Genesis Base Low Profile Head LPH-25 is one of the smallest and lightest in its class. It has been designed for the most demanding travel photographers who need a product that combine functionality with reliability in every possible situation, no matter what the weather conditions are. The unique design, a durable, super lightweight aluminium-magnesium alloy construction, ergonomically shaped knobs which allow unlocking and locking the ball with ease are the key factors that make the LPH-25 a top-notch gear for professionals on the road. The head feature a panoramic base with a scale to ensure seamless panning experience, and the remarkably shaped quick-release plate that provides a great stability in the clamp compatible with the Arca-Swiss system. The LPH-25 has got a standard 3/8" mounting hole to fix on a tripod, and it is under a 6-year warranty. Genesis Base LPH-25 is especially recommended to use with mirrorless cameras.
