

Genesis CVT-10 Kit CVT-10 tripod + VF-6.0 head

Genesis Base CVT-10 includes stable aluminum video tripod and a VF-6.0 fluid head, which affects smoothness of movements during making movies.

CVT-10 Kit is a smaller version of CVT-20 Kit, which allows for greater mobility of set. Retracted kit with head measures 78 cm. This makes mobility of CVT-10 Kit even better. Three sections of tripod and spiked or rubber feet allow to adjust the tripod to work on a variety of surfaces.

The head is tilted within the range of +90° (down) and -75° (up). The tilt force adjustment mechanism allows capturing both fast, sudden frames, and slow, long shots. The head is suited to work in -20°C to +60°C.

The tripod is made of aluminum, which makes it light and mobile. Kit's weight is just 3,2 kg.

Case with comfortable handle and soft foam inside is included. The foam prevents from scratches and damages during transport.

Warranty:

- 2 years

Specification:

Product type	Tripod
Max Height (With head)	167 cm
Working Height 1	73,3 cm
Working Height 2	113 cm
Working Height 3	157 cm
Sections	3
Panning Base Travel	360°
Tilt Range	+90° / -75°
Base Diameter	60 mm
Head Dimensions	37,4 x 22,7 x 15,5 cm
Weight of tripod	2000 g
Weight of head	1245 g
Weight of set	3245 g
Max Load (Head)	4 kg
Max Load (Tripod)	4 kg
