

Genesis Gear Center pinched lens cap

Genesis gear center pinched lens cap is a must-have accessory for every photographer who cares about the safety of his equipment. This accessory uses a well-known and extremely convenient solution of attaching the cap to the lens, just pinch the center and then attach the cap to the front side of a lens. The lens cap with a center pinch provides protection for the front lens against mechanical damage and dirt in the form of dust, and fingerprints. It is made of durable material to reduce the risk of damage. The lens caps are available in various sizes.

Available variants:

- 37mm – black
- 40,5mm – black
