

Genesis Gear CL07 Ring Light

The Genesis CL07 Ring Light is an extremely useful product for people who use video conferencing while working, studying, or web developers who want the proper lighting for their faces. This LED ring allows you to easily place it on your laptop screen or monitor with the ability to tilt it 180°. The mount itself is covered with non-slip rubber to reduce the possibility of falling on your computer screen. The additional mounting option is the ¼ inch thread located in the foot which allows you to screw the lamp to the tripod.

The Genesis CL07 Ring Light has been equipped with 72 LEDs, including 36 for warm color and 36 for cold color. The lamp has 3 modes of lighting within the 3000-8000K color range with the possibility to change the light power. The power of the lamp (7W) allows to achieve up to 936 Lumens (at a distance of 0.3m).

Genesis CL07 Ring Light is powered by a standard USB Type-C cable for convenient use. It can be powered through the USB port of your laptop, computer, or power bank. A 2m long cable is included in the set.
