

Genesis Monitor Adapter

Product features:

- standard diameter of rods 15mm
 - maximizing the functions of other Genesis products
 - quick assembly plate
 - light construction
 - assembly in any position and position
- EAN: 5901698700683

Genesis Monitor Adapter is a universal holder for additional accessories intended for filming. It has a thread with a diameter of 1/4 inch, so you can mount on it an overview monitor, as well as a camera. It can also be used to maximize Pro Cam Cage or Genesis SUBRO Rig features (sold separately). Thanks to a lightweight aluminum construction and the use of rods with a standard diameter of 15mm, it is versatile in use. It also allows mounting in any position and position, thanks to which it greatly facilitates the work of every filmmaker.
