

Genesis Tacit S

Genesis Tacit S is a light and comfy holster for carrying mirrorless or compact cameras.

At first glance Genesis Tacit S looks like any normal and small bag that you can take with you to work, school or supermarket, so it does not attract unwanted attention of other people.

In our holster you can store Olympus PEN or OM-D camera with attached standard lens or a small fixed lens. Other cameras of similar sizes, e.g. Sony a6000, can be also perfectly fitted into Genesis Tacit S.

The bag is made of a high-quality polyester fabric with unique and thick canvas texture. Shoulder strap is made of wide, soft tape, which is well matched to your body and ensures high comfort of use.

The main compartment protected by a lid fastened with a wide Velcro. Two flat small pockets are located under the lid and they may be used for storing small items. Two side, flat pockets will contain lens cap or an additional memory card.

Product features:

- discreet, casual design and durable polyester material with unique canvas texture
- enhanced access to your gear through a Velcro-fastened lid
- three external, flat pockets
- comfortable shoulder strap with length adjustment
- padded walls and bottom of the bag
