

Genesis Uni Baseplate

Genesis Uni Baseplate System is a set containing two rails together with their coupler and mounting plate. Genesis Uni baseplate provides a convenient platform to build a basic set of accessories for DSLR video. It is designed especially for the viewfinder Genesis VF CineView and Genesis Pro MFC Follow Focus. It can also be used with rigs and tripods thanks to 3/8" and 1/4" threads located on the coupler bottom.

Main features:
