

Genesis ESOX

Genesis ESOX is a stabilizer for GoPro HERO3 and HERO3+ action cameras. Now you don't need expensive, large and heavy stabilization systems to take smooth hand-held shots. It consists of a set of two brushless electric motors and gyro sensors that allow to stabilize your camera in two axes.

Genesis ESOX is entirely made of aluminium alloy. This material reduces the device's overall weight and ensures long life and durability. The stabilizer is power supplied with three 16340 batteries, the charger included in the set allows for charging, even through the computer's USB socket.

Genesis ESOX is easy to operate and does not require any additional maintenance. It can be conveniently transported owing to its compact size and low weight. It is a perfect tool for all GoPro HERO3 video camera users trying to take effective and stable shots. The product is covered by the manufacturer's two-year warranty.

Product Features:

- lightweight aluminum construction, only 300g
- precise, 2-axis gimbal stabilization system
- vertical camera adjustment
- compatible with GoPro Hero3/Hero3+ Black/Silver cameras
- power supplied with three 16340 3.7V batteries (included in the kit)

Model:	Genesis ESOX
Product type:	GoPro HERO3 and HERO3+ 2-axis gimbal head stabilizer
EAN:	5901698710095
ERP with VAT:	939,- zł
Warranty:	2 years
Device is compatible with:	GoPro Hero3 GoPro Hero3+ Black/Silver
Power:	3x 16340 3.7V battery's
Operation time:	approx. 2h
Temperatures range:	10 – 50°C
Dimensions:	220x80x80mm
Construction:	Aluminum alloy
Weight (with batteries/with camera):	300/395g
Kit includes:	• Genesis ESOX stabilizer • charger • USB/MiniUSB cord • AC adapter • 4x Li-ion 16340 3.7V 1800mAh battery • user manual
