EAN code: 7640172191286

Irix Edge 100mm Basic Hard
[IFHC-100-BH]

7 640172 191286 >

The Irix Edge 100mm Basic Hard Kit contains the **Irix Edge IFH-100 Filter Holder** and our **Hard Gradual Filter** which is made for shots with a flat horizon line. With this set, you can darken the highlights to achieve equal exposure for the entire frame.

The Irix Edge Traveller Filter Case is made especially for the Irix Edge Filter Holder and for 100mm square filters. It can store your filter holder with **up to two filters inside, and one filter separately (in a dedicated slot)**, which is more than enough to have you covered in most situations.

The Irix Edge adapters allows you to mount the square filter holder on a lens with a specific thread diameter.

Irix Edge Traveller Filter Case main features:

- The Irix Edge Traveller Filter Case is **compatible with all 100mm system filters**, including the Irix Edge IFH-100 Filter Holder
- Irix Edge Traveller Filter Case is the **first filter case that combines low weight and mobility with durability**.
- The filter case is made for square 100mm filters with the ability to store up to **three filters at the same time** with the Irix Edge IFH-100 Filter Holder.
- The fabric used in our filter case makes it **water-resistant** and **water-repellent,** which, combined with **sealed zippers,** provides incredible protection from dust and moisture for your filters.
- You can keep your favourite filter set in your Irix Edge IFH-100 Filter Holder, which can all be stored in the Irix Edge Traveller Filter Case. This makes it **ready to use on any trip**!
- The interior is finished in a **soft, filter-friendly fabric** that secures the filters even more.

Irix Edge 100mm Basic Hard

Enjoy Photography!

At Irix, we're real photographers - we know that every minute wasted on setting up equipment is a potentially missed **opportunity for another great shot**. We decided to **re-invent the idea of the case** for the square filters to let photographers enjoy what they really like – taking photos.

The Irix Edge 100mm Basic Hard Kit contains the **Irix Edge IFH-100 Filter Holder** and the **Hard Gradual Filter** which is made for shots with flat horizon line. With this set, you can darken the highlights to achieve equal exposure for the entire frame.

With the Irix Edge Traveller Filter Case, you can easily and conveniently change shooting locations – to maximize your potential for capturing incredible moments.

All you need is to prepare the holder and filters that you'll need and keep them in the hard case. Attach the Holder Adapter to your lens and you're ready to go – every time you need the filters just take them out of the case and snap them onto your lens.

Protect Your Filters from accidental damage

*In a **Fast, Light, and Secure** way*

High quality glass filters are a big part of every photographer's budget. They need to be well protected. The Irix Edge Traveller Filter Case allows you to shoot without worries – the hard case is made of **durable, water-resistant** materials and a zipper with **hard polycarbonate shell** inside. The interior of the case is finished with safe, **filter-friendly fabric**.
