

100mm Hard Gradual Filter

FEATURES

The Irix Edge Hard Gradual Filter this type of filter works well for scenes where the horizon is flat and regular such as the sea or some wide-open plain.

DESCRIPTION

How They Work?

The Irix Edge Hard Gradual Filter is a filter where the transition between full transparency and shaded area is narrower. This type of filter works well for scenes where the horizon is flat and regular such as the sea or some wide-open plain. In this situation, the upper part of the image – the sky – is definitely brighter than the rest of the frame, and this part should be covered with a filter.

The filter is available in these densities

Irix Edge 100 Hard nano GND4 0.6

Irix Edge 100 Hard nano GND8 0.9

Functional Filter Case

Each Irix Edge 100mm filter comes with a functional case, properly protecting the filter during storage and transportation.

Depending on the type of Irix square filter series, you will find different cases included:

Classic filters – A rigid foam case with a built-in silicone protective frame. In addition, a magnetic lock has been built in to protect the filter from accidental slipping out.

SR series filters – Case made of rigid material reinforced with additional stitching on the frame. The case has a ribbon sewn inside for easy removal of the filter from the case. In addition, Velcro has been built in to protect the filter from accidental slipping out.

Super Resistant (SR) optical glass

Filters also available with Super Resistant (SR) optical glass. This technology makes the filter extremely resistant to damage–toughened optical glass covered with special nano-coating makes the filter survive virtually anything.

European Brand

The Irix Edge brand has its roots in Europe – this is where they are designed, tested and improved by our research team, using the latest measurement equipment and under rigorous quality control. All the effort put into the product development makes us sure that you can trust them in any, even the most demanding conditions.

SPECIFICATIONS

Filter type	Neutral Density, Hard graduated
Standard (mm)	100 x 150
Thickness (mm)	2
Compatibility	Irix EDGE IFH-100 and other holders
Super resistant optical glass	Available in selected filters
Antireflection coatings	Multi-layer NANO coating
Special-type coatings	Double side waterproof and oil repellent

DENSITIES

GND4 (0.6)

GND8 (0.9)

PRODUCT DETAILS

Product series: Irix Edge
 Product name: Irix Edge 100 Hard nano GND4 0.6
 Product code: IFE-100-HGND4
 Size: 100x150mm
 EAN code: 7640172191033

Irix Edge 100 Hard nano GND4 0.6 100x150mm [IFE-100-HGND4]

Product series: Irix Edge
 Product name: Irix Edge 100 Hard nano GND8 0.9
 Product code: IFE-100-HGND8
 Size: 100x150mm
 EAN code: 7640172191040

Irix Edge 100 Hard nano GND8 0.9 100x150mm [IFE-100-HGND8]

PRODUCT DETAILS SR VERSION

Product series: Irix Edge
 Product name: Irix Edge 100 SR Hard Gradual ND4 (0,6)
 Product code: IFE-100-HGND4-SR
 Size: 100x150mm
 EAN code: 7640172192382

Irix Edge 100 SR Hard Gradual ND4 (0,6) 100x150mm [IFE-100-HGND4-SR]

Product series: Irix Edge
 Product name: Irix Edge 100 SR Hard Gradual ND8 (0,9)
 Product code: IFE-100-HGND8-SR
 Size: 100x150mm
 EAN code: 7640172192399

Irix Edge 100 SR Hard Gradual ND8 (0,9) 100x150mm [IFE-100-HGND8-SR]
