

Leofoto BPL-50 50mm plate with scales for panoramic clamp

The **Leofoto BPL-50** is a compact and ultra-durable **Arca-Swiss-compatible quick-release plate**, designed for secure and efficient mounting of mirrorless systems and lightweight DSLRs.

Engineered for daily use in both **studio and outdoor environments**, it's the ideal solution for photographers who need a **reliable, lightweight, and precise** camera-mounting system.

Durable & Lightweight – Aircraft-Grade Aluminum Construction

The BPL-50 is CNC-machined from a single block of **aircraft-grade aluminum**, offering exceptional durability while minimizing weight.

A **black anodized finish** provides added protection against **scratches, corrosion**, and environmental wear.

Strategically placed **cutouts** reduce overall weight without compromising structural strength.

Compact Size, Maximum Grip

With dimensions of **50 mm (L) × 39 mm (W) × 11 mm (H)** and a weight of just **35 g**, the BPL-50 is a perfect match for small mirrorless cameras and compact DSLRs.

It features a standard **1/4" mounting screw**, allowing quick and secure attachment to the camera body.

Angle Scale for Precision Framing

The sides of the plate include a **laser-engraved degree scale**, which allows for precise positioning on panoramic heads or macro rails.

Ideal for **panorama stitching** or **repeatable framing** in product photography.

Seamless Arca-Swiss Compatibility

The BPL-50 is fully compatible with all Arca-Swiss standard clamps and mounts.

It is also the default plate included with a range of **Leofoto ball heads** including:

- **LH-30, CB-34, CB-40**
