

Leofoto TFS Tripod replacement foot spikes

Leofoto TFS-US is a professional set of long tripod foot spikes designed to provide maximum stability when shooting in challenging outdoor environments — such as snow, grass, soft ground, ice, or rocky terrain.

Made of durable metal and measuring 113 mm in length, these spikes offer secure anchoring even on highly unstable surfaces. The set also includes rubber caps that can be attached when working indoors to protect flooring from damage.

replacement foot spikes**

EAN: 6940828340244

Versatile Use – Indoors and Outdoors

- The removable rubber caps make it easy to quickly adapt the tripod to any conditions — simply take them off for sharp, aggressive traction in outdoor settings.
- Rubber pads on top of the spikes ensure a snug and secure fit for tripod legs, minimizing slippage and enhancing vibration damping.

3/8" Thread Compatibility

The spikes are mounted using a standard UNC 3/8"-16 thread, making them compatible with:

- All Leofoto tripods with interchangeable feet,
- Tripods from other brands equipped with 3/8" threaded foot mounts.
