- **Length (without an eyecup)**: 100 mm
- **Diagonal**: 3.2”
- **Weight**: 300 g
- **Warranty**: 24-months
- **EAN**: 5901698710545

Genesis CineView LCD Viewfinder Pro is intended for all users of Panasonic GH3 and GH4 cameras. The viewfinder is perfectly fitted to a 3.2” display of GH series models. An image displayed on a LCD display is bright and sharp, and with the magnifying glass (x2,5 zoom) the display seems to be much bigger and clearer which allows a full control over the frame, depth of field and exposure. Large eyepiece, made of soft rubber plastics ensures perfect obscurity inside the viewfinder.

The viewfinder is mounted to the device with a tripod plate with a universal ¼” thread. With a magnetic clip, the viewfinder may easily dismounted without having to unscrew the plate. It may be also opened to generate a preview directly on the camera's display, without given components being disassembled. In such a configuration, part of the viewfinder's casing creates a lens hood which protects the display against too bright light. Diopters adjustment function is another advantage of the viewfinder.

The kit includes: Viewfinder, Mounting Plate, Strap, Microfiber Tissue, 3x Allen Wrench.
