

Quadralite 1/4 and 3/8 inch Eyebolt for QLT LED Light

A screw with a 1/4 or 3/8 inch thread is an indispensable component, allowing us to hang the lamp anywhere. Thanks to the bracket, we are able to tighten the screw to the tripod mount located in the QLT lamp while constituting a bracket that we can attach with the lamp in hard-to-reach places.

Variants available:

- 1/4 inch
- 3/8 inch

Warranty:

- 2 years
