

Quadralite flag with filling gold/silver/white/black

Quadralite flag is a modifier designed for light manipulation. Material from which it is made has a high temperature resistance, which allow you to work with any type of lamp. Flags are available in 4 sizes: 45x60cm, 60x75cm, 75x90cm and 120x120cm. All types of flags in the basic set have 4 different coatings: white/black/gold/silver, each of them has a different purpose, allowing for varied use of the modifier. The frame has a handle for mounting in grip heads.
