

Quadralite Hexadecagon 120 Softbox

Quadralite Hexadecagon is a softbox that provides a very soft, yet easy to control light, regardless of whether we work in the studio or outdoors. Its 16-shaft hexadecagon construction provides appealing circular catchlights in the subject eyes, which makes it an ideal tool for portraits, fashion and beauty photoshoots.

Quick and easy

Quadralite Hexadecagon is built on the basis of a quick folding mechanism, therefore is easy to use and can be prepared for work in a few seconds. Handy carrying bag is supplied in the kit for convenient storage and portability.

Parabolic

This parabolic-alike shaped recalls a tulip cup and is substantial for acquiring precisely lit scene and subject. Without unwanted lightspill. If necessary, Quadralite Hexadecagon can also be used with a honeycomb (available separately).

Fabrics

Quadralite Hexadecagon outer shell is made from high quality rip-stop nylon fabric for high durability, long lifespan and small weight at the same time. Interior is laminated with highly reflective silver film for even light distribution across its surface.

Double diffusion

There are two layers of diffusers made from high quality polyester rip-stop fabric. This part was carefully picked and tested to ensures proper white balance and color rendition. Inner diffuser is equipped with additional fabric layer in it center, to prevent hot-spot and assure even light distribution.

Durable

Softbox frame is internally made of metal. Steel tension rods supports whole structure effectively and keep parabolic shape despite lamp tilt.

Versatile

Softbox is equipped with widely used Bowens-type mount, which ensures compatibility with wide range of studio and on-location flashes available on the market, including Quadralite products.¹ Thanks to a adapters available for other systems, Hexadecagon can also be used with Broncolor, Profoto and Elinchrome flashes.²

Hexadecagon Softbox features:

- Available in three variants with different diameter: 90, 120 and 150 cm,
- Ensures super-soft lighting with maximum control and minimal light-spill,
- Hexadecagon design for circular catchlights – great for portraits, fashion and beauty,
- Fast to fold and easy to carry,
- Equipped with two, detachable diffusion screens,
- Can be used with grids for more contrast and precision lighting,
- Handy carrying bag included in the kit,
- Heavy-duty all metal frame construction,
- Compatible with all lamps equipped with Bowens mount, and after using the appropriate adapter (available separately) can be also used with Profoto, Broncolor and Elinchrome flashes.
