Product Description

Quadralite MiLED RGB 200 II is a compact yet highly effective light source equipped with 60 RGBAW LEDs. The lamp delivers a maximum power of 10 W and a colour rendering index (CRI) of ≥ 96 , ensuring excellent lighting quality. It offers smooth colour adjustment across the full 0–360° hue range, as well as saturation and brightness control from 0 to 100%.

The lamp also provides 10 different animated lighting effects, including simulations of police lights, lightning, fireworks, TV flicker and more. Control is handled via buttons on one edge of the lamp or through the Quadralite Light Controller mobile app, available for iOS and Android.

Battery status and other parameters can be monitored via the built-in OLED display. The lamp can be charged via USB-C or wirelessly using an inductive charger. The built-in 2500 mAh battery and USB ports also allow the lamp to be used as a power bank. It also features built-in magnets for creative mounting options. The kit includes a silicone diffuser to spread light and reduce unwanted shadows, a mini tripod, an adapter for mounting on a tripod or hot shoe, and a carrying pouch.

Quadralite MiLED RGB 200 II is a compact and versatile device, ideal for creating stunning backdrops for vlogs and streams, and as a creative addition to photo sessions.

Technical Specifications

Product name	Quadralite MiLED RGB 200 II
LED type	RGBAW
Number of LEDs	60 (40 AW, 20 RGB)
Maximum power	10 W
Colour temperature	2800 K – 8000 K
Colour accuracy (CRI)	≥ 96
Colour accuracy (TLCI)	98
Illuminance (1 m)	150 lx (5600 K)
Beam angle	120°
Brightness control	Yes, 0–100%
Power supply	DC 5 V / 2 A
Battery	Li-ion 3.7 V / 2500 mAh
Charging	USB-C / Wireless inductive
Battery life at 100% power	120 min (2 hours)
Battery life at 50% power	240 min (4 hours)
Control range	Up to 10 m (app)

Display	OLED
Mounting	1/4" thread, cold shoe, magnets
Cooling	Passive
Material	ABS plastic
Dimensions (H×W×D)	64 × 95 × 17 mm
Weight	124 g
Warranty	2 years

Full Light Control

The Quadralite MiLED RGB 200 II offers smooth colour temperature adjustment in the 2800K–8000K range, allowing you to precisely match the character of the light to your environment. With 60 RGBAW LEDs and a CRI of ≥96 and TLCI of 98, it guarantees accurate colour reproduction – essential in product photography or video productions where every detail matters.

Full hue adjustment (0–360°) combined with saturation and brightness control gives you virtually unlimited creative freedom over your lighting.

Mobility and Ease of Use

The built-in 2500 mAh lithium-ion battery provides long runtime in the field with no need to connect to mains power. The lamp supports both USB-C wired charging and wireless inductive charging for maximum convenience. The built-in USB ports also allow it to function as a power bank – keeping your other devices topped up on location.

Battery status and all key parameters are displayed on the built-in OLED screen, giving you full control at a glance.

Intuitive Operation and App Control

The lamp can be operated via the physical buttons on its edge or through the Quadralite Light Controller mobile app (iOS/Android). App control allows you to adjust light parameters from up to 10 metres away, switch between modes instantly, and manage multiple lights simultaneously using the grouping function – reducing setup time and improving on-set efficiency.

Versatility of Use

Quadralite MiLED RGB 200 II performs well in a wide range of situations – from classic portrait and product photography to advanced video productions and experimental artistic projects. The 10 animated lighting effects (police lights, lightning, fireworks, TV flicker and more) open up virtually unlimited creative possibilities for content creators.

Built-in magnets allow for quick and creative attachment to metal surfaces, while the included adapter enables mounting on a tripod or hot shoe, making the MiLED 200 II ready for any shooting scenario.

Creativity in Social Media and Mobile Filmmaking

More and more content is now created with social media in mind, where standing out is the key to success. The MiLED RGB 200 II is perfectly suited for vlogs, live streams, Reels and TikTok videos – allowing you to quickly and effectively adapt the colour scheme to a specific mood or theme.

The lamp also works brilliantly for mobile productions shot with a smartphone, delivering professional-quality light that will be appreciated by amateur creators and experienced influencers or vloggers alike.

Key Features

Maximum power 10 W – powerful output in an ultra-compact form factor.

60 RGBAW LEDs – 40 white/amber and 20 RGB diodes for full colour control.

OLED display – real-time monitoring of battery level and light parameters.

Brightness control 0–100% – precise adjustment of light output for any situation.

High colour accuracy (CRI ≥96 | TLCI 98) – guaranteed natural tones in product photography, portraits and video.

Mobile app control – operated via Quadralite Light Controller (Android/iOS) within a range of up to 10 m.

10 animated lighting effects – police lights, lightning, fireworks, TV flicker and more.

Built-in magnets – quick and creative attachment to metal surfaces.

Wireless inductive charging – no cables required – simply place on a compatible charger.

Power bank function – charge your other devices directly from the lamp's battery.

What's in the Box

LED lamp

Silicone diffuser

USB-C cable

Hot shoe adapter

Mini tripod

Carrying pouch

Quadralite Light Controller App

The Quadralite app for lights and panels is available for Android and iOS mobile devices. It enables control of light parameters from up to 10 m away, grouping of multiple lights, and quick switching between operating modes including CCT, HSI, GEL and animated effects.
