

## Quadralite Reporter 200 TTL Round Flash Head

This head is dedicated for Reporter 200 TTL flash and designed to deliver pleasing light pattern and natural fall-off when used with no additional light modifier. All this is achieved by usage of spiral shape flashtube and parabolic reflector topped with white translucent diffuser.

Head is also equipped with 4.3W LED modeling light and magnetic accessory port that allows fast attachment of additional light modifiers such as grid, color filters, barndoor, snoot etc.

### Product features:

- modular design – perfectly fit Reporter 200 TTL flash
- delivers soft and pleasing light even without any light modifier attached
- equipped with 4.3W modeling light
- magnetic accessory port for fast attachment of light modifiers
- comes with a handy pouch
