

Quadralite Super Clamp for C-Stands

The Quadralite Super Clamp allows you to mount various accessories to the stud of C-Stands. It is also possible to mount Super Clamp on the stud of standard studio stands or other element with a diameter of up to 16 mm (5/8"). The rotating part of the clamp allows the installation of various accessories, such as: reflectors, umbrellas, crossbars, boom arms, with a diameter of the mounted element not exceeding 20 mm. Super Clamp is made of durable aluminum alloy, ensuring failure-free operation under heavy loads.

Product features:

- Durable construction
- Convenient operation
- For C-Stand and standard studio stands
- Wide range of diameters of gripped elements

Warranty:

- 2 years
