

Quadralite SVL-400 LED PLUS lamp

Quadralite SVL-400 LED PLUS is a complete kit created for every photographer who values quality and mobility. The box contains an extremely lightweight and quiet lamp, based on LEDs. With the power of 40W, the device can be easily used not only in photography but also on small film sets. COB LEDs guarantee a stable stream of light, which is characterised by high colour rendering index (CRI≥96,3) and colour temperature close to sunlight (5800K). The fresnel lens with adjustable range allows you to adjust the light beam in the range from 15 to 40 degrees. The universal Bowens mount will provide the possibility of using various light modifiers such as reflectors, softboxes and gates, allowing for even better effects during the session. The built-in cooling system protects the equipment from overheating, allowing you to use the lamp for a longer period, and the quiet operation of the fan will not interfere with the sound recording process during filming. Another important feature is the lifespan of the LED used in the lamp, which reaches 50,000 h which is the equivalent of over 5.5 years of continuous operation. The small casing and low weight make it possible to take the flash with you on every session and the included bag will ensure the safety of the set during transport. The tripod bracket included in the package gives you the possibility of adjusting the angle of inclination, allowing for precise lamp positioning and umbrella mounting.

Selling Points:	Product highlights:
- Maximum output power: 40W, - High accuracy and narrow beam of light, - Power adjustment from 5-100% allows you to adjust the light intensity perfectly to the situation, - Built-in easy to read LED display indicating current light settings and battery status, - Mains power supply or Sony NP-F type batteries (sold separately), - NP-F type batteries make the flash can also be used away from a stationary power source, - Intuitive operation and simple interface, - Sturdy composite housing, - Bowens mount for mounting many useful accessories such as softboxes, gates and reflectors, - A velcro-fastened bag with two handles to hold the entire kit, - Tripod mount with adjustable lamp angle and umbrella attachment.	- Active cooling system, - Small size and weight, - Power adjustment from 5-100%, - Colour temperature: 5800K - CRI >96,3 - TLCI >99 - Ability to manually adjust the light beam from 15 to 40 degrees,

Product Sheet

The kit sold includes:

- Quadralite SVL-400 LED lamp,
- bag,
- power supply,
- tripod holder,
- cardboard box.

Warranty:

- 2 years

Spec.:

	Quadralite SVL-400 LED PLUS
Power output:	40W
Power Adjustment:	5%-100%
TLCI:	> 99
Cooling:	Overheating prevention system
Diode type:	LED - COB technology
Light angle:	-15 up to 40 degrees
LED Lifetime:	50000h
Accessory Mounting:	Bowens type
Built-in fresnel:	Yes
Mounting	5/8" mandrel and 1/4" thread mounting point
Material	Composite
Power Supply:	AC/DC adapter or NP-F type battery (battery sold separately)
Net Weight of Set:	1271g
Lamp Weight:	638g
Bag Dimensions:	13,5cm x 25cm x 17cm
Package Dimensions:	26cm x 14cm x 18,5cm
Lamp Dimensions:	16cm x 12,2cm
