

Product Sheet

Quadralite SVL-800S LED with snoot

SRP 365€

Product description

Quadralite SVL-800S LED, the lamp is **integrated with an optical snoot with Canon EF mount**, which allows you to plug in lenses with **different focal lengths**. The kit includes a Quadralite L-60 lens (60mm focal length), **6 GOBO filters and 4 color filters** with which we can form the light beam. The maximum power of the lamp is **80W**. On the back of the lamp is an on/off switch and a knob for adjusting the light intensity **from 5-100%**, as well as a display that **informs about the current power of the lamp or the charge level of battery**. Operation of the lamp is provided by the included AC adapter or **customized NPF type battery** (available separately). The tripod mount included in the kit gives you the **ability to adjust the angle**, allowing you to position the lamp and mount an umbrella. The device can be used not only in photography, but also on small film sets. LEDs made with **COB technology guarantee stable light output**, which is characterized by high color reproduction index at the level of (**CRI≥97**) and color temperature of **5600K** (± 200K). Another important feature is the lifespan of the CREE LED used in the lamp, which reaches **50,000 h**.

EAN:5901698725273

Key features:

- Maximum power of 80W
- Interchangeable lenses
- Remote control
- Color temperature 5600K ($\pm$ 200K)
- Possibility to mount GOBO filters
- Power supply via NP-F or included power supply
- Glow control in the range of 5-100%
- Color reproduction at CRI $\geq$ 97
- Compact size

The sold set includes:

- Quadralite SVL-800S lamp
- Quadralite L-60 lens
- Quadralite Gobo set of 6 light modifiers
- 4 color filters
- Bag
- Power supply
- Tripod holder
- Carton

Warranty:

- 2 years

Product feature	Details
Power	80W
Dimensions of the lamp	29x12x10 cm
Dimensions of the box	34x24x19 cm
Colour temperature	5600K $\pm$ 200K
CRI	$\geq$ 97
TLCI	$\geq$ 98
Photometry	8600lux/1m
Cooling fan	Yes
Built-in fresnel	Yes
Light intensity adjustment	In steps from 5-100%
Mounting	5/8" stem and 1/4" threaded mounting point
Light beam angle adjustment	15-40 degrees
LED technology	COB
Led brand	CREE
Voltage	110-240V
Frequency	50-60hz
Led lifetime	50000h
Power supply	AC/DC adapter or dedicated NP-F type battery
Net weight	2516 g
Gross weight	2755 g
